Dear Ms Henney, 8471 '99 JUL 12 P3:15

The Center for Science in the Public Interest (CSPI) has recently filed a petition with the FDA asking that medically useful antibiotics be banned from animal feed. I urge you to support this petition. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. That leaves physicians with no way to treat life threatening bacterial infections in humans. Thank you for your consideration of these concerns.

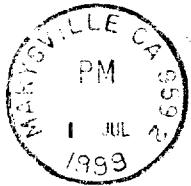

Sincerely,  
Jan M. Goodwin
